A petition extensively signed by busieas men in Bangor and along the line of the Maine Central as far as Vanceboro. requesting the company to make freight trains No. 26 and 37, in charge of Conductors Bean and Skillings, mixed trains, 'has been sent to the company's Leadquarters at Portland, and a reply; to the ting Sidney street. Expressed desire is now being awaited by those interested.

They consider that it would be a great convenience if the trains named could carry passengers as likey would be enabled to make their way from one town to another much more guickly and would not be obliged to stop in one place so long. Business could be transacted much more expeditiously. As it is now with only one train to accommodate the travelers along the line between Bangor and Yanceboro, busi-
